NEWS OF THE WORLD.

The Irish Home Rule Question.

A COAL MINE OVERFLOWED.

Sacramento's Effective Method of Ridding the City of Chinese—Coast Notes.

Special to the Herald by the Associated Press.]

DUBLIN, December 18.—The *Daily Express*, a consistent upholder of the loyalists, in a leading article this morning, says: "If the demands of the Parnellites are granted and any such scheme of Home Rule is attempted as Gladstone has been credited with, civil war would probably follow."

HOME RULE EXCITEMENT.

LONDON, December 18.—The excitement throughout Great Britain on the subject of home rule for Ireland continues without abatement. Newspapers of all shades of opinion and politics are urging Gladstone to speak definitely in regard to his plans. The late Premier, in response to a telegram sent to-day asking him for information with reference to the Irish home rule scheme which it is reported he has had under consideration for some time, replied as follows: "From my public declarations at Edinburgh respecting the government of Ireland, you will easily see I have no further communication to make." It will be remembered that in the speech referred to, which he delivered on November 17, he said in effect, in reply to Parnell's suggestion to give local self-government to Ireland, that when he learns through a constitutional channel what the wishes of Ireland are he will give them attentive consideration but that he cannot gain this knowledge until the new Parliament meets.

George J. Goschen, a prominent member of the Whig branch of the Liberal party, having been asked to-day for an opinion on the reported scheme of home rule for Ireland, replied by telegraph that he maintained his hitherto expressed convictions against home rule, and could not comment on any scheme of that nature until such scheme had been fully declared.

The Marquis of Harrington, who was Secretary of War in Gladstone's Cabinet, declares that he has not approved the scheme, as had been intimated in certain quarters.

THE ORANGEMEN AROUSED.

DUBLIN, December 18.—The city of Armagh in the province of Ulster was to-day the point of an immense Loyalist demonstration. The meeting adopted a resolution expressing the belief that a resort to home rule principles would be certain sooner or later to eventuate in civil war, and exhorting the Loyalist party to go to the utmost length in resisting the efforts of the home rule advocates. The resolution commended the Loyalists in Ireland to the sympathy of Protestants throughout the British Kingdom. More than one of the speakers boasted with a degree of earnestness that aroused repeated cheers from the listeners, that the Loyalist party in Ireland was ready to meet whatever issue might be presented. "The Ulster Orangemen are ready to come to the front," one of the speakers amid great applause said, "and when their services are wanted 60,000 men can readily be put into the field for active service in defense of loyalty to the government."

A MINE FLOODED.

A Serious Accident near Wilkes-barre, Pennsylvania.

WILKESBARRE, Pa., December 18.—The water in the Susquehanna river, at Nanticoke, broke through the workings of No. 1 slope of the Susquehanna Coal Company this morning, and at noon there was about six feet of water in the slope. The alarm was sent through the workings when danger was apparent, and all the men, except seven Hungarians who are believed to have been drowned, hurried to the mouth of the slope and were rescued.

The accounts from Nanticoke are conflicting. Advices received this afternoon were to the effect that thirty-nine men employed on rock work in No. 1 slope were imprisoned in the upper lofts by the rapid rising of the water. Several miners entered the slope at 3 o'clock with boats, intending to use every means to reach the men. A dispatch received here 6 o'clock this evening from Nanticoke stated that sixty-one of the miners were unaccounted for and that it was supposed they were drowned. Later advices state that all the men are reported to be out of the mines except twenty-four. The fate of these is as yet unknown.

LATER ADVICES.

The disaster at Nanticoke is more serious than at first supposed. The theory that the water broke through the bed of the river is dispelled by the fact that the place from whence the water came is 4,000 feet from the Susquehanna. It flowed from a pool on the surface. It followed the rock to a fault in the seam, ran into the gang way and slopes, thence to the lower workings of No. 1 slope. When the water was discovered making into the slope there were nearly a thousand men and boys at work on various openings, but at the particular spot where it first appeared there were not over thirty persons. It is reported that there are now about thirty men who are shut in by the water and rubbish that accumulated in the west gangway in the second lift of the Ross seam. It is impossible to say what their fate will be. A rescuing party is following the face of the chambers of that part of the gangway with hopes of reaching them some time during the night. The officials say there is no danger of the men suffocating, as they will get plenty of air from the faces of the chambers that are not clogged. Pumps were put into operation to-night. They have a capacity of removing 2,000 gallons of water per minute, and it is expected the mine will be clear by Monday next. Old miners are of the opinion that the men who are shut up will be rescued alive. At 10 o'clock this morning the company were making every possible effort to reach the imprisoned men. Additional pumps are being rapidly put up. Another force of men has been sent down the air shaft, who will endeavor to cut through to the spot where the imprisoned men are believed to be. This work will be kept up night and day until the fate of the men is known.

HOPES OF RESCUE.

Information received here at 11:30 from Nanticoke says that the water has subsided and a large force of men are at work removing the quicksand that blocks the gangway. The rescuing party are now within forty feet of the men and there are strong hopes of reaching them by morning. The damage to the mine will be extensive and it will be some weeks before work is resumed.

THE CHINESE.

Sacramento Seems to Have Solved the Vexed Question.

SACRAMENTO, December 18.—The citizens Anti-Chinese Association organized here to-night with a large membership. The Association has for its objects the furtherance of legislation for the riddance of Chinese in California and the displacement of Chinese by white labor. Chinese are being discharged on every hand and from general appearances this will done generally. One of the boycotted flour mills has discharged all of its Chinese help. The Chinese vegetable venders and wash-houses are no longer patronized as formerly and the Chinese, from want of employment, will be forced to leave the capital city.

An Emperor to Marry.

PEKIN, December 18.—It is currently reported and generally credited that the Emperor will be married in February next, at which time the Empress Regent will retire and the young Emperor take possession of the Government.

Washington Notes.

WASHINGTON, December 18.—Among the measures introduced in the Senate to-day was the following by Frye, providing that all future appointees as heads of departments of the United States army shall be officers selected from the army and nominated by the President and confirmed by the Senate to be such heads of departments for the term of four years. It declares that this provision shall not apply to the head of any department until that office shall first become vacant. The President may in his discretion, however, at any time place upon the retired list any existing head of department and the retired list is enlarged for that purpose.

The Record contains twenty-five pages of nominations sent to the Senate since the beginning of the present session. They number about 1200 cases.

There are indications of a protracted debate in the Senate on the resolution of Butler about South Dakota. The discussion has assumed a partizan character and a number of Republican Senators have entered upon the preparation of speeches. Representative Morrison, speaking of the movement in South Dakota, said the present Congress would certainly not consent to a division of Dakota and the admission of one-half as a State. The admission of the entire Territory to the Union might be possible.

Against Boggs.

SAN FRANCISCO, December 18.—At a meeting of the State Horticultural Society to-day a resolution was adopted which called the attention of Controller Dunn to a violation of the law in appointing Wm. Boggs, an inexperienced person, to the position of State Inspector of Fruit Pests, and requesting the Controller to withhold the warrant for his salary.

The Singer Company Shuts Down.

ELIZABETHPORT, N. J., December 18.—The Singer sewing machine factory shut down to-day, and 2500 employés were informed by placard that operations were suspended until further notice because of the tax levy by the city. A public meeting of employés has been called for to-morrow evening. The company owes $20,000 in taxes and refuses to pay.

The Excursion Season.

In conversation with a HERALD reporter yesterday, Mr. S. J. Mathes said he brought out in the excursion arriving here two days since 88 persons. They were all strangers here excepting one returning Angeleño who had been on a visit East. Of them all some two-thirds have come here to stay. The other third may be said to be spying out the promised land. They have come to the south land to look it over, and if they like it they will remove here later.

Mr. Mathes said he met one of them and his wife yesterday, and she asked Mr. Mathes where she could find some of the pilgrims. He told her a party of them were at that moment congregated in the St. Charles Hotel. "If they like California as much as we do," she remarked, "they will never be satisfied until they get out here for good and settle down in their own home." This lady had but passed when an old gentleman came up and said: "Well, this is marvellous. This is incredible. The hills and fields all green in December! It is so hard to believe even one's own eyes." Mr. Mathes says the interest in California grows daily at the East. Those who come here write back to those left behind. These tell others, and so the story spreads. Of course, after this month, there is likely to be a rather smaller movement, as most people try to lay their plans to come in the early fall. But all through the spring many will continue to come, and next winter the exodus from the Central States will begin again in an increasing stream. This winter has been a rather open one in the West, but a few days before the party left Chicago snow fell and the mercury fell to 15 degrees below zero. Then came a rain and this was followed by frost again, so that the streets were like glass. Nearly all Chicago was constantly "taking a seat" before an invitation had been given.

They Made Him Go.

It is wonderful what a lively interest is created and on what short notice a crowd can be collected on the street by a balky horse, and equally wonderful that everybody in the crowd has his own particular and never-failing remedy for balky horses. Yesterday a horse hitched to a one-horse wagon seemed disposed to stay just where he was on Main street. The usual crowd collected. One man bit the horse's ear; another put gravel in his ears; another tied them together with a string; another put dirt in his mouth, and so on until the horse seemed discouraged and the crowd at their wits' ends. Then the horse's head was turned to the west and he trotted off without further trouble and never stopped until he reached those desirable lots to be sold at auction next Tuesday, where the horse nibbled the grass and the driver examined the lots, using as a guide the map which he had secured at 33 South Spring street, room 5, up stairs.

The Iron-Sulphur Springs.

In the HERALD this morning appears a large double column advertisement of the Iron-Sulphur Springs of this county. These waters and their great remedial qualities, as well as the salubrious air and beautiful scenery of the place, have all been long known here. It is a generally conceded fact among the medical faculty of Los Angeles, that as an alterative the waters of the Iron-Sulphur Springs are unsurpassed.

Doctor Widney, the resident physician, is well known as an experienced physician, an able business man, and an accomplished gentleman. The character of this resort is carefully kept on the very highest moral level, and altogether it would not be an easy matter to find any where a place superior to the Iron-Sulphur Springs, whether one seeks it as an invalid in search of health, or as one weary of toil and bent on the recuperation to be had from the quiet of such a lovely retreat.

LEWIS BROS.

The Normal School Closed.

The pupils in the branch Normal school all took their departure yesterday for their several homes at the close of the term. There had been 207 pupils in attendance, of whom but twenty-eight were young gentlemen. All the rest are supposed to be embryo schoolmarms. Of these more than eighty are from this city, and the rest (about 127) from the country. Of those in attendance twenty-two graduated Thursday. The next term of the school will begin on January 12th. The institution is in a flourishing condition and the pupils in attendance are receiving a high degree of mental training.

Three daily trains each way make it a most convenient location for men engaged in business here. This tract will be placed on the market by Russell, Curtis & Sweetser on Tuesday, January 5th, at public auction, as per the advertisement in another column.

CONGRESSIONAL.

Both Houses to Take a Holiday.

A PENSION TO MRS. GRANT.

The Matter of Dakota's Admission Still Undecided — Amended House Rules Adopted.

[*Special to the Herald by Associated Press.*]

SENATE.

WASHINGTON, December 18.—Mitchell from the Committee on Pensions, reported favorably a bill granting a pension to the widow of General Grant. The bill was at once passed without debate.

Vest argued the question of Dakota's admission from a legal point of view, and insisted that under decisions of the United States Supreme Court in former cases of admission, the recent action in Dakota was revolutionary. He cited Judge Cooley and other authorities to the effect that an enabling act was necessary as preliminary to the admission of a Territory as a State, and asked what more outrageous insult could be offered to the sovereignty of the United States than the action of the men responsible for the recent developments in Dakota. He offered as independent of the resolution of Butler a resolution to the effect that the memorial from persons calling themselves the State Executive Committee of Dakota be considered as coming only from private individuals of Dakota. The resolution was laid over and ordered printed.

Logan enquired if it was revolutionary for the citizens of a territory to get together and present their claims to be admitted as a State, they taking care to provide in their new Constitution that they should not be a State until Congress should approve their Constitution. He thought it unfair for the Senators to regard the action in Dakota as revolutionary until they should set up as a State, undertake to perform the functions of a State and assume the powers of Statehood.

Butler said he had misapprehended what constituted a State if the election of Senators and Judges was not exercising Statehood.

Logan replied that this was done so as to take effect when they should be admitted as a State, as had been done before.

Vest said if he had been disposed to be offensive he might have remarked that the Senators from Illinois and Indiana inferred that three electoral votes might become very necessary in the future.

Logan thought Vest's allusion to partizanship was an error so far as he (Logan) was concerned. It was the Senator from Missouri who had insinuated that some persons might desire to get Dakota in as a State for the purpose of getting electoral votes.

"I do not say I am an esthetic statesman," replied Vest. "I am a politician, I suppose. I will fight for my party. I am not a Mugwump. [Laughter] I shall be satisfied if my party, which I believe to be sound on constitutional questions, shall say of me: 'Other things being equal, he stood by his friends.'" He never rose to such an esthetic pedestal that he could not distinguish a friend from a foe. The Senator from Illinois (Logan) himself has never been accused of that, nor have I."

After further debate the matter, at 2 o'clock, went over till to-morrow. The Senate then proceeded to the consideration of the joint rules. After a short debate, resulting in some amendments of detail, the rules were finally agreed to.

Cameron was relieved from service on the Committee on Transportation Routes to the Seaboard; McMillan from service on the Committee on Mines and Mining, and Chase from service on the Committee on Claims, and the Chair appointed Mitchell, of Oregon, to the vacancies indicated.

Adjourned till Monday.

HOUSE.

WASHINGTON, December 17.—In the House the consideration of the report of the Committee on Rules was resumed, the pending amendment being one offered by Springer, of Illinois, to abolish the various committees of expenditures in the different departments and to concentrate their duties in one committee, consisting of fifteen members. After considerable debate the amendment was rejected.

The House also rejected the motion of Hammond to strike out that clause of the proposed new code of rules distributing the appropriation bills among the several committees of the House, by a vote of: Ayes, 69; noes, 227. None of the California, Nevada or Oregon members voted yea.

On motion of Cobb, of Indiana, an amendment was adopted granting the Committee on Public Lands leave to report at any time on bills for the forfeiture of land grants, to prevent speculation in public lands, and for the reservation of the public lands for the benefit of actual and *bona fide* settlers.

Adams, of Illinois, then offered an amendment virtually prohibiting riders. The amendment was adopted and the remainder of the report was agreed to without objection, then the report was adopted *in toto*. So the rules of the Forty-Eighth Congress as amended by the report of the Committee on Rules are re-enacted as the rules of the Forty-Ninth Congress.

Morrison, of Illinois, then called up the resolution for holiday recess, after having amended it so that the recess shall begin on Monday next and end on January 5th. Beach, of New York, opposed the idea, which he considered a childish one, of taking a holiday recess at this time. It was attended with danger and he appealed to the Democratic House to go as far as the Republican Senate had done in taking some action on the Presidential Succession bill. The resolution was then passed.

On motion of Watson, of Indiana, the Senate bill granting a pension to the widow of General Grant was taken up and passed. Price, of Wisconsin, voted in the negative.

Death of Mrs. Richard Garvey.

The painful news reached the city last night of the death of the wife of Richard Garvey, at his rancho on the San Gabriel river about thirteen miles east from this city, from post-partum hemorrhage. The intelligence was a great sad surprise to all the friends of this most estimable lady in this city. Mr. Garvey will receive the heartfelt sympathy of his old-time friends in Los Angeles. The funeral will take place in Los Angeles, a notice of which will appear to-morrow.

THE GRAND OPERA HOUSE.

For Matinee and Farewell Performance the Popular "Mikado."

Last night the Thompson Opera Company again presented to a very select and sympathetic audience the charming "Beggar Student." Owing to an immense private party at the residence of a distinguished citizen the proportions of the house were greatly shorn of their fairness. Whether owing to this or to some other reason known to the stage manager, the opera was badly "cut," much to the chagrin of those who went to hear a score whose tuneful sweetness is hardly excelled in the whole line of sentimental opera.

The Mikado has so won upon the opera goers of this city that by special request it will be given at the matinee this afternoon and at the farewell performance this evening. Nearly the whole house is sold for the matinee and nearly all the fashionable people of the city, with great numbers of the children of the *creme de la creme* of the Angelic City will be there. At the evening performance there will doubtless be present the greater part of the opera-goers of the city. From here the troupe go to Portland, Oregon.

We wish it distinctly understood that we are giving away toys and that our selection is as great and varied as is to be found in any toy store in Los Angeles. DR. WILLIAMS,

Specialist in all the various diseases of the
HEAD, THROAT AND CHEST,
—INCLUDING THE—
EYE, EAR AND HEART.

OFFICE, 275 NORTH MAIN ST.,
(Opposite the Express office),
LOS ANGELES, CALIFORNIA.

All diseases of the respiratory organs treated by the Aerean system of practice, which is conceded by all educated people to be the only means by which these diseases can be cured.

Eighteen years practice and nearly seventy thousand cases treated.

CONSUMPTION.

The earlier symptoms of this disease are a sense of weariness upon little exertion, a disposition to remain passive and idle, a peculiar sensitiveness to the effects of cold and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough, with or without expectoration, flying pains throughout the chest or back, or under the shoulder blades. The symptoms are worse towards or during the night, slight fever in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails.

The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectorations of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucous from the lungs.

Heretofore the treatment of consumption has been very unsatisfactory, alike to both the physicians and their patients, but luckily since the discovery of the Aerean system of practice a few years ago, thousands of cases have been completely cured, where had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalations is the only means by which these diseases can be cured. And they are recommended by the highest authority, both in Europe and America. By this means we are enabled to dissolve the hardened mucous in the lungs, ease the cough, facilitate expectoration contract and heal ulcers and cavities after all hope of cure by the ordinary method is past. Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever. The greater portion of consumption cases can be radically cured. Consultation free and price within the reach of all. The very best of reference given from those already cured.

Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for "List of questions" and circular, both of which will be sent free of charge. Address,

Herald Steam Printing House.

The HERALD Steam Printing House is not surpassed by any job printing office on the Pacific Coast, outside of San Francisco, in facilities for doing job work. Low prices, good work and execution may be relied upon at this office.

Special Notice.

Hereafter notices of companies, societies, churches, etc., will only be inserted in the HERALD as paid advertisements. We reserve for places of worship a gratuitous directory, which will appear every Sunday morning.

The HERALD office is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to number 156.

The HERALD is the official paper of the city of Los Angeles. The city delinquent tax lists and all other municipal notices appear only in its columns.

Mr. B. N. Rowe is the Santa Ana agent of he HERALD.

A Tempest in a Teapot.

One of the funniest developments ever known in California politics was the election of O'Donnell as Coroner of San Francisco. Probably the Golden Gate is the only large town in the United States in which such a man could have been elected to such a position. O'Donnell was just as well known before the election as after. For years he had indulged in the same fanfaronades and rhodomontades that have characterized him of late. Yet the fact remains that he received the largest majority ever given to any municipal official in the Golden Gate. The San Francisco newspapers have been calling him an incendiary and a blatherskite for years. He was just as much of a blatherskite at the time of his election as he was before or has been since. Notwithstanding, he received more votes than both the Republican and Democratic candidates put together. Nobody was taken by surprise at any stage of his career. For years he had been parading up and down, through and around and across that devoted city. For years before his election as Coroner he had bloviated weekly on the Sand Lot, breathing threatenings and slaughter, and yet he was voted for for the second office in the city and county of San Francisco with a unanimity which has never been approached in the instance of any other citizen. Still today the press and people of that city have the unadulterated gall to parade the discovery of a few pounds of dynamite and a few lengths of gaspipe as something both new and startling. They are working themselves up to a white heat of indignation—the same people who elected O'Donnell Coroner. All the indications are that they will be apt to do something supremely foolish. The way to treat a lot of cranks like Weisman and Koosher is to let them alone. The moment Crowley and Lees start in to hound them they will inevitably become martyrs. It would be far better for the municipality to provide them with red flags, bands of music and a reasonable quantity of dynamite than to arraign them in courts and commit their fate to juries. They will either not be convicted, when the whole thing will be a farce, or to the popular appreciation the machinery of the courts will have been used to persecute them should they be found guilty. In a free country like the United States wholesale plans of assassination will never amount to anything. The air is not congenial to such developments. One of the most arbitrary rulers who ever lived was Frederick the Great of Prussia. But he never nagged his subjects. A very sagacious remark of his ran, "My people and I have a tacit agreement. I am to do what I please and they are to say what they please." O'Donnell, Weisman and Koosher, if left alone, will be perfectly harmless. If they are to be persecuted the case may be very different. The splendid rains are doing the work of removing the dangerous classes from San Francisco. There is work in the agricultural districts for all who might otherwise have remained there as agitators. It will be very injudicious to arrest the exodus of this element. Should there grow up an overmastering excitement in the Golden Gate those who contemplated seeking work in the country would remain, while many of those who had already gone would return. The best way to treat the Socialist in the United States is to let him alone.

Photography Put to a New Use.

The Hill-Sharon trial has been signalized by many features of sensational interest. From many points of view it is a *cause celebre*. But perhaps the most interesting feature about it all has been the employment of photography in connection with the purported contract of marriage and the "My Dear Wife" letter. The other day in San Francisco a man was sent to San Quentin for forgery on the evidence afforded by microscopically enlarged photographs of a signature. Gen. Barnes in his brief in the United States Circuit Court in the Hill-Sharon case has procured and published a series of microscopically enlarged photographs of all the distinctive letters employed in both the contract and the famous "My Dear Wife" epistle. They are run through the brief and in some cases the letters are several inches high. He has also procured photographs, on card board in which the lettering is a foot high. This novel application of photography will undoubtedly have a great influence in the decision of this cause, and microscopic-photography will questionless play a very leading part in cases of forgery hereafter. We believe that the Pacific Coast is entitled to the credit of this new and ingenious adaptation of photography to the purposes of evidence in courts of law. It will also be remembered that to Muybridge, of San Francisco, is due the honor of perfecting the system of instanteous photography. His photographs of the horse in motion were the first achievements in the line of this new departure.

Let Dakota In.

The HERALD hopes that the Democratic party will be magnanimous in the case of Dakota, and admit this splendid and progressive young community as a State of the Union. It is true that the late elections still leave the Republicans a majority of six in the United States Senate, and that the admission of Dakota would add two more to that number. What of it? No Democrat worthy of the name would consent to accept the ascendancy of his party on any little, finicky piece of sharp practice. If the people are not with us the reins of government might as well be passed over to our opponents. It will not take long, if the Democratic party shows itself responsive to its high mission, to secure us the United States Senate. A change of three votes would do it now. A change of four would do it even if Dakota were admitted. Meanwhile, it is said on excellent authority that the territory contains between three and four hundred thousand people, and it produced last year seventeen million bushels of wheat. It is poor policy to secure the permanent ill-will of such a progressive people by keeping them out in the cold. Besides, the men who accept expediency as the guide of their actions might secure their timid souls by simultaneously admitting Montana, which could be relied upon for two Democratic United States Senators.

IT looks as if Parnell is master of the Parliamentary situation in England and will be able to extort from Gladstone some form of Home Rule. When once the Liberal leader shall have made up his mind to concede this point there are no essential difficulties in the way. Ireland has enjoyed a species of Home Rule in the past. She had her own Parliament and made her own laws. It is not yet a century since an Irish Parliament sat in Dublin. It is true that the Parliament of Great Britain claimed a supervisory right over the legislation of the Irish body, and probably there will be some reservation in the present case. An imperial Parliament will in all likelihood be preserved unless Ireland should be able to achieve absolute independence. England could not do a better thing than to re-adjust her legislature on the plan of the Congress of the United States, thus allowing all portions of her scattered dominions to assist in framing national legislation and to legislate absolutely for their own local affairs. What she has conceded to Australia and the Dominion of Canada she can very well afford to accord to Ireland.

Cure For Piles.

Piles are often preceded by a sense of weight in the back, loins and lower part of the abdomen causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm is a very common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Piqua, Ohio. Sold by C. F. Heinzeman, agent, Los Angeles.

Monster Photographic Views.

Mr. Hodson (Buffalo Bill), of Sacramento, a celebrity in the way of photographic views, has lately purchased the largest photographic apparatus in the world, and will turn his "infernal machine" loose for the first time in the Antelope Valley. His views will be taken on a large scale, so the pictures will be from seven to ten feet square. These mammoth photos are to be placed on exhibition in the offices of the S. P. R. R. Co. in London, New York, Chicago, St. Louis and other populous cities in the East and the old world.

American Dyspeptics.

Americans, more than any other nation in the world, are victims of Stomach derangements. This is owing to the hurried manner in which they eat their meals and to the amount and quality of food eaten, rich food being cheaper here than in any other country of the world. There are very few Americans whose stomachs are in a perfectly healthy condition. Most remedies for derangement of the stomach are offered in the form of bitters, tonics, etc., which merely stimulate the stomach and afford a temporary relief. De Haven's Dyspepsia Cure is a remedy that supplies what is wanting in the digestive juices of a deranged stomach, and is the only remedy offered to the public that cures all forms of dyspepsia, indigestion and flatulency. Disappointed Conductor.

The boys of the telegraph office at the depot, knowing the number of a ticket held by a popular conductor of the Southern Pacific who was at Sumner a few nights since, by way of a "slant" told the operator at Sumner over the wires that No. —— had drawn the $5000. The manly and stalwart conductor at once telegraphed to the boys to know if the number they had telegraphed was O. K., when he set up the beverages for the boys in Sumner in fine style. On his return to Los Angeles he found he had been sold and refused to respond to the boys here.

Attempt to Blackmail the Prince of Wales.

THE CONSPIRATORS ARRESTED

A Stupidly Conceived Plot, Which the London Police Force Easily Circumvents.

[Special to the Herald by the Associated Press.]

LONDON, December 18.—London had a genuine sensation to-day. Early this morning a young man and his wife, John and Sarah Magee, were arrested at Kensington on a charge of having attempted to procure money from the Prince of Wales by writing threatening letters. They were taken into court and formal charges preferred against them and they were remanded to await examination. It appears that the prisoners had written two letters but as they were not read in court it is impossible to give their exact language or state, except in general terms, what they contained. It is known, however, that the letters made a demand for £750, and intimated in unmistakable terms that unless the amount was forthcoming the Prince's life would be in jeopardy. The Prince, it is said, paid only passing attention to the first letter which the Magees sent, but when the second came reiterating the demand and threats his royal highness turned the letters over to the police and left them to do whatever they thought best. The police at once quietly set about planning the capture of the blackmailers. They sent a message as though coming from the Prince to the address given in the letters, directing the authors to appear at a specified time and place. The assurance was given that somebody would meet them at the appointed hour prepared to hand over a package containing the money they demanded. The Magees at once fell into the trap which had been set for them. They appeared at the spot designated this morning and were presented with a package of farthings. As they started to leave with their supposed treasure the police threw off their disguises and arrested them. The woman thereupon made a voluntary confession of the whole plot—at any rate the police say that the confession was voluntary. The woman, however, has since declared that she was forced by the police against her will to confess something. It is thought that she fears the confession made by her in the first moments of consternation after her arrest may be bad for her in the trial, and that she is therefore trying to weaken its effect by asserting that it was forced from her by the police. A representative of the press called upon an equerry of the Prince of Wales this afternoon to learn any facts obtainable about the affair. The equerry knew something of the contents of the letters. These he declared represented that Magee was an emissary of a secret society and had been ordered to kill the Prince of Wales, but the letters further intimated that Magee did not wish to obey the mandate. There was no help for it, however, unless he could get money enough to go to America. He wanted £750 therefor. If this amount reached him he would at once bid a lasting goodbye to secret societies and conspiracies and start across the Atlantic. Nothing further can be learned to-night. It is believed that disclosures of an important nature may be made when the case comes before the court for thorough investigation.

A Crank.

SAN FRANCISCO, December 18.—A man, name unknown, created a sensation to-day in the Nevada Block, where he called and demanded to see young Mr. Flood, who at the time was out. While awaiting Mr. Flood's return, the visitor acted suspiciously, and on the approach of one of the clerks, reached for a revolver in his hip pocket. Before he could get it, however, he was seized and ejected from the building. It is believed he is a crank who sought to imitate the late Charles W. Brown, who committed suicide in the same building.

Chinese Becoming Citizens.

EL PASO, December 18.—Chinese located in El Paso are taking out naturalization papers and intend to become permanent citizens. Eight were made citizens to-day. It is thought that the whole local colony, numbering over two hundred, will secure papers. The leading Chinese in the city state that the movement will become general and their countrymen in all the cities and towns in the southwest will speedily renounce their allegiance to China and become American voters.

The Apaches to be Exterminated.

PRESCOTT, A. T., December 18.—In an official communication Secretary Lamar assures Governor Zulick that the Apaches who left their reservation will be pursued by the troops until their capture or utter destruction is accomplished, and no effort will be spared by the government to bring to deserved punishment the hostile Chiricahua Apaches.

Court Reporters' Salaries.

SAN FRANCISCO, December 18.—The Supreme Court to-day decided that the salaries of $300 a month for official reporters of the Superior Courts fixed by the Superior Judges under the act of the Legislature of March 21, 1875, were unconstitutional. The court's decision declared that the fixing of a salary was a legislative act and not a judicial one.

DAY DISPATCHES.

O'DONNELL IN DANGER.

He Receives a Couple of Infernal Machines.

SAN FRANCISCO, December 18.—The evening *Post* this afternoon will say that two packages were received by Coroner O'Donnell yesterday. Each box was about six inches square. They were loaded with powder and balls and some sticks ran through the powder bearing caps. The contrivances had sliding lids lined with sand-paper, so that on opening them the caps would explode and the powder be touched off. Recent occurrences had made the Coroner suspicious and he took the precaution of soaking his presents in water before opening them. It was owing to this precaution that no damage was done. The clerks in the postoffice have received instructions to be exceedingly cautious hereafter in handling O'Donnell's mail.

Indians in Trouble.

MISSOULA, Montana, December 18.—Last night two Indians created trouble in the store of V. H. Combes at Arlee, on the Flathead Reservation. One of the Indians was killed and the other, known as Big Jim, escaped. The Indians on the reservation gathered in large numbers and trouble was feared. The troops at Fort Missoula were ordered to proceed to Arlee, but later reports were more favorable and the order was countermanded.

FINANCE AND TRADE.

The New York Stock Market.

NEW YORK, December 18.—Government bonds, quiet and strong.

Stocks have suddenly relapsed into extreme dullness. The market, however, was strong nearly the whole day and closed at about the best figures of the day, from small fractions to 1 per cent. higher than last evening. Northern Pacific preferred shows an advance of 1⅞ per cent. The statement is officially made that the rumors respecting negotiations between the company and a syndicate to take several millions of acres, have for their basis nothing more than a letter of inquiry received from a gentleman little known to the company, asking if it would sell a large block of land and take in payment preferred stock. The company replied that when a proposition was made it would be sufficient time to consider it. Grangers were remarkably well held considering that the earnings of the Northwestern reported to-day for the second week of December show a loss of $48,790. That stock closed at an advance of ⅞, while St. Paul is up ⅝ per cent.

NO ONE NEED SUFFER.

A sure cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian Remedy), called Dr. Williams's Indian Pile Ointment. A single box has cured the worst chronic case of 25 or 30 years' standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. Williams's Indian Pile Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed), acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts; and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. Williams's Indian Ointment: "I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. Williams's Indian Ointment." Manufacturers' Association.

The monthly meeting of the directors and members was held at the rooms of the association, old Masonic Hall, Thursday evening. The following applicants were admitted to membership: A. H. Denker, Los Angeles Furniture Company, Robert McPherson, Orange; J. T. Richardson, Ed. A. Hall, Charles Coulter, J. A. Clarke, Pomona; John Bloeser, C. H. Hance, C. C. Davis, making the total membership ninety-five.

The following resolution was unanimously adopted:

Resolved, That it is the sense of this association that the City Council should appoint a Zanjero and City Engineer who will co-operate with this organization in promoting the interests of home manufacturers to the fullest extent possible.

The secretary's report showed the total receipts to be $217.50; expenses, $99.73; balance in the hands of the treasurer, $126.77.

George T. Hanly was elected president of the association until next July, and Charles Coulter vice-president.

A vote of thanks was extended to Messrs. John Hall, S. B. Lewis and John M. Davies, the exhibit committee in connection with the recent district fair, for their valuable and persistent labors in the display of raw materials of Los Angeles and tributary territory.

On motion the following was adopted as the first of a series of subjects to be discussed at the regular monthly meetings: "How can zanja water be best used for manufacturing purposes?"

Messrs. Coulter, Winter and Milliken were requested to prepare a report on the subject.

The Secretary read extracts from an article which appeared in the HERALD on the subject of the natural gas supply in Los Angeles and vicinity. On motion the Chair appointed Messrs. Hall, Clarke and Huckins a committee to investigate the same and report at the next meeting.

The following resolution was, on motion unanimously adopted, and the daily papers requested to publish the same in full:

WHEREAS, The profitable utilization of the vast and diversified natural products available for manufacturing purposes in the territory tributary to Los Angeles depends in a great measure upon the establishment of new and the promotion of existing manufacturing industries in Los Angeles and surrounding towns: and

WHEREAS, The continued prosperity of Los Angeles in particular and of Southern California in general depends largely upon the success and expansion of home manufacturing enterprises,

Resolved, That the Los Angeles Manufacturer's Association respectfully urge upon all citizens interested in the welfare and continued development of the material resources of Southern California to purchase (provided quality and price are equal) *only* home manufactured articles, and thus contribute in the most direct and effectual manner towards the rapid development of our resources, wealth and population.

On motion the committee on zanja water for manufacturing purposes were requested to arrange for a discussion of the question before the City Council, and to secure as many members of the Association to be present as can possibly attend.

Newspaper Investigation.

PHILADELPHIA, Pa.—The *News* says: "A remarkable discovery made last winter, which involves a most important question—that of public health, is being discussed by eminent physicians and public men. It is shown conclusively that throat and lung troubles can be cured without resorting to the use of morphia or opium, especially dangerous in the case of children. The Governor of Maryland and all the officials of that State endorse the remedy, and hospital and charitable institutions in this and other cities use it with remarkable results. This remedy which is only twenty-five cents a bottle, is Red Star Cough Cure. It is purely vegetable; it contains no poisons nor narcotics, and is a positive cure.

"Fools Rush in Where Angels Fear to Tread."

So impetuous youth is often given to folly and indiscretions; and as a result, nervous, mental and organic debility follow, memory is impaired, self-confidence is lacking, at night bad dreams occur, premature old age seems setting in, ruin is in the track. In confidence, you can and should write to Dr. R. V. Pierce, of Buffalo, N. Y., the author of a treatise for the benefit of that class of patients, and describe your symptoms and sufferings. He can cure you at your home, and will send you full particulars by mail.

The Gopher Gathering.

Lindley; Treasurer, F. C. Howes; Executive Committee, Mr. F. Kelly, Daniel Pickett and J. T. Brown.

Expedited Mail Service.

Yesterday the Board of Trade caused a petition to be prepared to be signed by merchants and citizens of Los Angeles and presented to the Postmaster-General asking that the mail service to Los Angeles from all points east of Albuquerque, New Mexico, be expedited. The petition states that the mail service over the Southern Pacific, via Deming, has been all that could be desired: but, since the completion of the Atlantic & Pacific and California Southern, via Waterman and Colton, it is found that Eastern mails coming to Los Angeles via that route and forwarded through Wells, Fargo & Co.'s express reach here fifteen hours earlier than the government service.

The petition asks that all mails east of Albuquerque destined for Los Angeles be sent by the California Southern road, via Waterman and Colton.

Messrs. Stearn, Germain & Mathews were appointed as a committee to circulate the petition and obtain signatures.

The Malignant Ingenuity of a Fiend

Could scarcely devise tortures more excruciating than those to which the victim of rheumatism, in the inflammatory stage, is subjected. It is also dangerous on account of its tendency toward the heart and stomach. Among the benign qualities of Hostetter's Stomach Bitters, is that of expelling from the circulation those acrid impurities to which the disease is attributable. Analysis proves that, in cases of rheumatism, the kidneys fail to eliminate those impurities from the blood. The Bitters, by stimulating these organs to activity, enables them to perform this all important function, and, therefore, averts the disease or remedies it at the outset. The functions of digestion and secretion of bile by the liver, are also healthfully stimulated by the Bitters, which conquers dyspepsia and liver complaint, and remedies fever and ague, bilious remittent and other ailments of malarial birth. It is also the leading tonic of the age.

Judic.

The single night tickets for the Judic opera season are now on sale. There was quite a rush at the box office yesterday morning, all anxious to select what remaining seats there were left from the season seat sale. Both operas will be put on in a style and splendor never before seen here. The costuming of both pieces are magnificent, and the company outside of the star is a very strong one, numbering 55 artists. There is a treat in store for our theater goers. It is advisable for all to go and procure their seats before they are all gone.

The Great Sale To-morrow.

The great auction sale of Tulare and Kern county lands to-morrow, at the agency, 263 N. Main street, will be made by Easton & Eldridge, of San Francisco under orders from the Pacific Coast Land Bureau, represented here by Geo. Turnbull. All lands are sold under guarantee and the bureau has a responsibility representing at least a million of dollars. Titles perfect and descriptions of land in the catalogue can be thoroughly relied upon.

Caledonian Club.

At the regular fortnightly meeting of the Caledonian Club, held in its rooms, 17 West First street, Thursday night, the following gentlemen were elected as officers of the club for the ensuing year: Chief, J. O. Maclean; chieftain, J. T Richardson; treasurer, A. S. McDonald; recording secretary, Charles E. Gault; financial secretary, Robert M. Thompson; directors, Alexander Crow, Robert Hardie and William Maclean; honorary physician, Dr. A. C. McDonnell; chief piper, Gregor McDonald. The meeting was large, and with the exception of two or three, nearly all the old officers were re-elected.

Dr. Quinlan's Opinion of Mullein.

Abietene and Yerba Santa are strictly products of California. Mullein is a product of the world. Dr. Quinlan, of Dublin, before the Medical Congress at Copenhagen, says Mullein has greater curative powers than Cod Liver Oil and equal to Russian Koumiss, and it has been demonstrated that Abietene and Yerba Santa has equal if not greater curative powers than Mullein. Abietene Cough Balsam combines the three well known expectorants and narcotics (without opium) making it the greatest and best cough medicine ever produced. Price 75 cents. Sold by C. F. Heinzeman.

Passengers Going South.

The steamer Orizaba sailed for San Diego Thursday with the following passengers from this city: E. Bell, A. H. McHatton, E. McGinley, R. Bolling, Miss A. M. White, Frank Lewis, John A. Walls, Miss B. Sepulveda, Miss L. Baird and six in steerage.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health with a hearty appetite, and a gain in flesh of 48 lbs." Call at C. F. Heinzeman's drug store and get a free trial bottle of this certain cure for all lung diseases. Large bottles $1.00.

Removed.

S. Brown & Co., manufacturers of the Great California Golden Age Hair Reproducer and Tonic, and the wonderful Sea Foam for shampooing the head, having found that the demand for their goods so great they were compelled to enlarge their facilities for manufacturing and have fitted up a neat office and salesroom at No. 213 S. Spring street, where they are prepared to supply the trade and all others with their wonderful articles. The California Golden Age Hair Reproducer has been in use in Los Angeles for some time, and has always given the best of satisfaction. It is different from all other hair preparations as it is absolutely free from oils and poisons, containing no sugar of lead, sulphur or nitrate of silver, but is prepared of roots and herbs. Mr. Brown, the discoverer of this wonderful preparation, takes great care in putting up the same and none is genuine without his signature. The proprietors have on file many letters from leading citizens of Los Angeles and elsewhere commending its use. In many cases of baldness a new growth of hair has been the result of the use of the Golden Age, and where the hair falls out it ceases by its use. The Sea Foam, for shampooing, has met with favor and is spoken of in the highest terms by those that have given it a trial. Both of these articles for sale by all first class druggists, and can be had in any quantity at the office and factory, 213 S. Spring street, Los Angeles. Try it.

A PERSONAL CARD.

A Matter in Which the Public Should have a Deal of Interest.

Why does the government spend so much money and risk so many lives in trying to capture the counterfeiter?

"Suppose he does counterfeit government bonds and notes, surely the government is rich enough to stand any loss his act may confer!"

But the individual citizen could ill afford to be put to continual financial loss if such desperadoes were let go unwhipped of justice.

It is only the valuable thing that is counterfeited; it is only in the light of purity and virtue that impurity and vice can be known. No one in these days would counterfeit a Confederate bond or note.

People who commit fraud always do it by simulating the highest virtue; by preying on the cleanest reputation, by employing the fair name of virtue with which to give respectability to vice.

Let us explain; Seven or eight years ago (so we have been informed many times in public prints) a New York gentleman was pronounced, as many millions have been pronounced before, incurably sick of an extreme disorder. By suggestions which he believed were providential, he was led to the use of a preparation which had been for several years employed by a select few physicians in New York City and one or two other prominent places. The result was that he was cured—he whom doctors without number and of conceded ability said was incurable. Having secured possession of the formula, *absolutely and irrevocably*, he determined to devote a portion of his accumulated wealth to the manufacture and sale of this remedy for the benefit of the many who suffer as he suffered, in apparent hopelessness. In less than three years, so tremendous became the demand for this remedy, and so exalted the reputation, that he was obliged for his purposes to erect a laboratory and warehouse containing four and a quarter acres of flooring, and filled with the most approved chemical and manufacturing devices. Probably there never was a remedy that has won such a meritorious name, such extraordinary sales, and has accomplished so much good for the race.

Unprincipled parties, who flourish only on the ruins of others, saw in this reputation and sale an opportunity to reap a golden harvest (not legitimately, not honorably), for which purpose they have made imitations and substitutions of it in every section of the country, and many druggists, who can make a larger profit on these imitation goods, often compromise their honor by forcing a sale upon the unposted customer.

Yes, undoubtedly the manufacturers could well afford to ignore such instances of fraud so far as the effect upon themselves is concerned, for their remedies have a constant and unremitting sale, but they feel it to be their duty to warn the public against such imitations and substitutions, non-secret and otherwise. The individual who buys them, and the public who countenances their sale, alone suffer in mind, body and estate therefor.

The authors of some of these fraudulent practices have been prosecuted and sent to prison for their crimes; but there is another class who claim to know the formula of this remedy, and one Sunday school journal, we are told, has prostituted its high and holy calling so far as to advertise that for twenty-five cents it will send all new subscribers a transcript of the Warner formula. This formula, by the way, must be a wonderfully kaleidoscopic affair, for there is hardly a month passes when some paper is not issued which pretends to give the only correct formula.

The manufacturers inform us that they would be perfectly willing that the public should know what the true formula of Warner's Safe Cure is (none that have been published are anything like it), but even if every man, woman, and child in the United States were as familiar with this formula as with their A B C's *they could not compound the remedy*. The method of manufacture is a secret. It is impossible to obtain the results that are wrought by this remedy if one does not have the perfect skill acquired only by years of practice, for compounding and assimilating the simple elements which enter into its composition.

The learned Dr. Foster, the honored head of Clifton Springs Sanitarium, once said, that having roughly analyzed this remedy he recognized that the elements that compose it were simple, but he attributed the secret of its power to the method of its compounding, and this method no one knows except the manufacturers, and no one can acquire it.

Our advice to our readers, therefore, cannot be too strongly emphasized. As you would prefer virtue to vice, gold to dross, physical happiness to physical misery, shun the imitator and refuse thereby to lend your aid financially to those who seek to get, by trading upon another's reputation and honesty, a sale for wares and goods which on their merits are fit only to be rejected as the veriest refuse. You can neither afford to patronize such people, nor can you afford to take their injurious compounds into your system. When you call for Warner's Safe Cure see that the wrapper is *black with white letters*, and that the wrapper and label bear an imprint of *an iron safe*, the trade mark, and that a safe is *blown in the back of the bottle*, and that a perfect 1c *promissory note stamp* is over the cork. You can't be imposed on if you observe these cautions.

We have the highest respect for the remedy we have mentioned, and the highest regard for the manufacturers, and we cannot too highly commend their dignified and considerate tone in relation to those who would traduce their fair name, and ruin the best interest of the public in such matters.

Dr. Robbins has had several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and three years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After every treatment the patients are treated with the Massage treatment, by persons of their own sex. The Doctor diagnoses disease without explanation from the patient, free of charge. His office hours are 8 till 12, 1 to 5.

Simply this and nothing more:
It came from C. F. Heinzeman's store;
Has proved to be a perfect cure,
Pleasant tasting, safe and sure.

That gum tree (eucalyptus) cough syrup, which is made from the eucalyptus, or blue gum, leaves of the Australian tree, and during its introduction on this coast has been proven to be the most valuable remedy for colds, coughs, sore throat, whooping cough, bronchitis and consumption. The only remedy that will not cause heartburn or disorder to the stomach in cases where consumption has got firm hold. Relieves the coughing, builds up the weak frame and is positively superior to any drug cough remedy. A dollar size package for seventy-five cents. C. F. HEINZEMAN, Agent, Los Angeles.

TAKING UP THE CROSS.

A Large and Enthusiastic Gathering at the Tabernacle.

The short concerts at the opening of the evening services in the tabernacle, under the leadership of Mr. Northup, attract a great many there at an early hour and prove a very enjoyable part of the service.

The threatening state of the weather tested the real interest of the community in the tabernacle services last night, and the large audience and the absorbing interest pictured in every face must have been inspiring to those specially interested.

Dr. Munhall announced the young people's meeting at 3 P. M. on Sunday for all young people from twelve to thirty years of age. Young people are admitted to that meeting by ticket. No persons over thirty years of age will be admitted, except workers, who will get their tickets from the pastor.

The usual Sunday evening meeting will be held at 7:30 P. M.

A yoke-fellow's meeting for young men was called for 7:30 P. M. Saturday (this) evening in the Y. M. C. A. Hall.

The Bible readings of next week are to be held in the Fort street M. E. Church. The subject of Monday's reading is "The Devil."

The Doctor took for his text for the evening, Matthew, 16, 24—Taking up the cross and following Jesus. He referred to a picture he had seen that illustrated his text—a pile of crosses, with a white-robed figure behind it and a way leading upward and another way downward. He pictured out some of the scenes along the ways.

Better take up your cross and follow Him. I am not here to tell you that you can go on playing cards, drinking whisky, going to the theater and such like, and still go on your way to heaven.

There are those here who have been thinking, have been thinking for years. If you are here to-night, you have knowledge enough, and all the conviction God wants you to have. Act on it to-night.

With reference to children coming to Christ,—God has called them there. The man or woman who discourages the little ones from coming to Christ will certainly merit condemnation. God's time is in the morning of life. Mr. Spurgeon says that during thirty years he has received about 50 children to membership each year, and has not needed to discipline one such.

A father once heard his boy pray by his bedside, "Heavenly Father, won't you please make room for a little fellow." Thank God, He makes room for the little ones.

Backsliders are hard to do anything with. They get into the same position as those who are resisting God, find fault with the preacher or the church.

A man in New Albany, Indiana, got angry in a meeting and stalked out, and threatened he never would enter the meetings again. But next meeting he was back. Went out again the second night so mad that he couldn't sleep, and spent the whole of the next day abusing the Doctor. Came back the third night, and went into the inquiry meeting and in fifteen minutes was rejoicing in Christ.

It is a good sign to have men take up the cross. Better have them take it up anyway than sleep on the brink of hell.

The Doctor then drew a word-picture of a converted wife with an unconverted husband, and hoped if any such were here they might be brought to join that wife and journey with their little ones to the city of God.

He then spoke of the many young men, children of many prayers, who might be here and hoped they would yield to God. Also of the many, the great crowd on the way to destruction, either on the way upward bearing the cross or going downward with the many. He then closed with a stirring appeal to those undecided and unsaved.

In response to an invitation to rise for prayers, quite a number, especially young men arose, and afterward passed into the inquiry room for conversation.

The Doctor marshals his forces with the enthusiasm and power of a great general, and judging from the number that flocked into the inquiry room, the meeting proved to be the most powerful and rich in results of the series, and even after the second meeting many remained talking, as thoughloath to leave the influence and break the charm of the meeting.

If the rain comes down as it threatens at this writing, the property-owners on Second street, below Olive, will regret the condition they have left the gutter in on the northern side of the street, where it was washed out in the last flood. "Take time by the forelock; he is bald behind."

Some contractors bought a lot on Fort street, near the entrance of Franklin, but on the west of Fort. They have used this property to get dirt off it for grading elsewhere. For months past it has been a nuisance to the neighborhood, because of the dirty way they keep the sidewalk.

The grading of the jail lot is progressing favorably. A large part of it is now down to its proper level, which is the same as the Temple and Fort street crossing at the corner of the Court House lot. The dirt is taken on to Olive street to fill up that thoroughfare and some of the lots fronting on it.

Mr. Russell lost his pocketbook at the depot yesterday. It was amusing to see how quickly a passenger picked it up and went through the folds to find—nothing. He had scarcely finished the investigation when the owner came up and remarked how much interested he was in its contents—rather non-tents—and claimed the lost treasure-holder.

ON THE LINE OF THE L. A. AND S. G. V. R. R.,

VAWTER TRACT

TITLE PERFECT. Abstract at the office.
TERMS OF SALE—One-third Cash, balance in one and two years, at 10 per cent. interest.
Sale to take place on the grounds.

THE VAWTER TRACT has been divided into large, beautiful resident villa lots. Each lot contains about eight ordinary city lots, and the tract is laid out with streets 50 feet wide and alleys. A perpetual water right goes with each lot, giving the purchaser an abundant supply of of the purest mountain water delivered in front of each lot in four-inch pipes. Many of these lots are covered with orange and lemon trees, grape vines, peach and apple trees, just coming into bearing. The soil is a rich, light sandy loam. This tract is a part of Pasadena, being one of the original allotments of the San Gabriel Orange Grove Association lands; otherwise known as the Indiana Colony. It is that part of Pasadena lying nearest to the city of Los Angeles. The snow-capped mountains of the Sierra Madre range in the distance, the green hills dotted with orange groves in the foreground, and pure mountain water, and the bracing air from the mountains, offer unusual natural attractions, which, in connection with the close proximity to the Sierra Madre College, churches and schools, and last, but not least, a view of the great Raymond Hotel, now in process of erection, one mile and a half to the east, make this location one of the most attractive spots in Southern California for a home.

Parties desiring to visit this tract before the day of sale, can leave Los Angeles on the 8:45 morning train, get out at Lincoln Park station, and have 40 minutes in which to look over the ground before taking the returning train. The Vawter Tract is 400 feet east of Lincoln Park station. Daily trains on the L. A. and S. G. V. R. R.:
